

Small and Medium Business

Save money on lighting this year

Earn a 20% bonus rebate on your next lighting project

Upgrading to energy-efficient lighting is one of the easiest ways to save energy at your business. A simple switch to qualifying LED lighting products can help you save by generating less heat, using up to 90% less energy and lasting up to 25 times longer, which reduces maintenance needs.

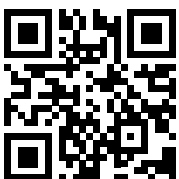

20% bonus rebate details:

- This offer can be combined with standard and other bonus rebates.
- Available on a first-come, first-served basis.
- Final application must be submitted by Nov. 30, 2026.
- **New for 2026:** All lighting upgrades are eligible, except custom lighting. See back for complete list.

**Ready to make
the switch?**
